Primary Responsibilities

- Implement the therapeutic program as designed for children and youth in care in a consistent manner and provide logical and rational interventions as needed to ensure their safety and wellbeing.
- Assist in the planning and implementation of activities; actively participate in those activities with the children and youth as directed.
- Provide education and adequate supplies for proper hygiene habits and social skills.
- All areas of the facility must be cleaned at all times. Keep informed of the needs of children and youth in care to be able to provide consistency in programming; participate in the exchange of information at each shift change.
- Complete all assigned written paperwork, including daily progress notes, shift logs, Incident Report and Restraint Forms and other communications prior to shift.
-

Job Description

The Direct Care Staff will be the front-line worker responsible for day-to-day operations of the milieu. The Direct Care Staff is also responsible for the safety and well-being of the children and youth assigned to their care, as well as the coordination and implementation of the interventions and activities designed to promote growth and a stable environment as they move through the program toward independent living. Must like to work with children in a behavioral health setting for treatment purposes.
